

Hello Mr. Powell,

Please reconsider the decision to deregulate. I believe the proposed changes would lead us deeper into a controlled society. During the anti war efforts these last many months, I was unable to find any reference to the rally efforts in Washington DC, or any where else unless I looked very hard! Which I did. It doesn't matter how I feel about the issue....it matters that I could not find any information until way after the fact! This is what we will face if a few own the majority of our news sources. Already we are the least informed people on the earth!!!! PLEASE reconsider this.

I am registered voter who votes. And I think it may be time to get more involved and encourage my neighbors, coworkers and friend to to the same.

Thank you,
Ellen Henry
